

Growing by Grace

St. Philip's
**GROWING
BY GRACE**

The St Philip's "Growing by Grace" building campaign is on its way!

On Sunday, October 27, 2019, the congregation was invited to stay after service and vote on the school. We decided on a total new build to be done in two phases, which would allow us to keep our scholars on site. The building will be brighter, safer and provide the necessary academic amenities needed to continue the high quality education that St. Philip's is known for. The design provides a room for Bible study, community activities and other shared spaces. The project will be managed by Anderson Ashton design/build construction firm.

We are excited about the new school and what the future holds.

Our target goal to break ground is spring of 2021 and is dependent on financial support.

Please keep this project in your prayers and let's all find a way to support it.
